## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. Applicant's submission of an information disclosure statement on August 4, 2003 has been entered and fully considered as indicated by the signed PTO-1449 attached to this office action.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 5,778,173 (Apte) in view of U.S. Patent No. 5,319,700 (Mano et al.).

Apte discloses a system for that allows communication of transaction information via two separate communication lines including the Internet and a telephone line (see column 2, lines 54-67). Apte fails to disclose monitoring the status of a terminal adaptor.

Mano et al. discloses a terminal adapter pooling system that monitors status information (see column 2, lines 4-27)

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify with Apte with the terminal adapter status monitoring system as taught

Art Unit: 3627

Mano et al., because the use of a terminal adapter that monitors the status in order to reduce the load on one of the communication lines.

### *Conclusion*

4. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.

Bezos is cited of interest for disclosing a secure method for communicating credit card data when placing an order on an non-secure network.

Harwood et al. is cited of interest for disclosing a bifurcated transaction system.

Bharucha et al. is cited of interest for disclosing a telecommunications network architecture.

Chen et al. is cited of interest for disclosing a method and system for call interruption services.
